

# INTEGRATED TRAINING AREA MANAGEMENT

## ITAM Learning Module

### Helpful Note

## Create SQL Statements in Quest

1. Start Quest
2. Connect to a database
3. Select the New button from the toolbar
4. Select the SQL button from the toolbar

A new SQL window will open. It is here that you enter your SQL statements. It is also where all resulting data is displayed.

1. Enter an SQL statement in the window using proper SQL syntax
2. Select SQL from the main menu
3. Select Execute SQL Statement from the submenu
